

Household Hazardous Waste (HHW) Wise

Many common household chemicals products contain hazardous ingredients and need special care to be used and disposed of safely.

- Safely Use:
 - FOLLOW LABEL GUIDELINES
 - Never mix chemicals
 - Avoid skin contact
 - Do not use around food
 - Close lid between applications
 - Avoid breathing in vapors or mists
 - If spill on clothing, remove and wash ASAP
- Safely Store:
 - Store in dry, cool, well ventilated, locked area away from children, and pets
 - Resecure child-resistant safety closure before storing
 - Store corrosive, flammable and toxic products separately
 - Store products in tightly closed, original containers, NEVER IN FOOD CONTAINERS
 - KEEP label legible
 - Never use empty household chemical product containers to store other items
 - DO not store flammable products near ignition sources
 - Gasoline must be stored outside of home/ basements in approved safety containers
- Safely Dispose of:
 - USE IT UP
 - Use on another project
 - Share it with a neighbor
 - Share with other organizations in town
 - Call Your Board of Health about the next HHW day
 - Go to WWW.Cleanup.org or call 1-800-Cleanup to find a place that will dispose of the items properly
